EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Cancel claims 1-6 and 17-27. The Examiner has the authority to cancel the nonelected claims since the election made on 8/2/04 was made without traverse.

Remove "Method and" from the title of the invention.

The following is an examiner's statement of reasons for allowance:

Claim 7 states the tip of the cleaning mechanism is fitted into the attachment at a predetermined depth. The cleaning stick is exposed from the cleaning mechanism by pressing the tip of the cleaning mechanism toward the optical connector. Shimoji et al. (USPN 6047716) and Stein et al. (USPN 5325452) teach fitting the cleaning stick and the optical connector into an attachment at a determined depth. However Shimoji et al. (USPN 6047716) and Stein et al. (USPN 5325452) all fail to teach a cleaning stick that moves past an initial predetermined depth to contact the optical connector. Instead the prior art references teach cleaning sticks that are stationary. Sato (USPN 6449795) fails to teach an attachment as well as exposing the tip of the cleaning stick past a predetermined depth. There is no motivation to modify the references to achieve the claimed invention of claim 7.
